General information

In this publication, any expression signifying one of the genders includes the other gender equally, unless inconsistent with the context.

The University reserves the right to amend the Yearbook at any time. The Council and the Senate of the University accept no liability for any inaccuracies there may be in the Yearbook. Every reasonable care has been taken, however, to ensure that the relevant information to hand as at the time of going to press, is given fully and accurately in the Yearbook. Notifications regarding bursaries or the amendment of bursary conditions are announced through the official channels of the University and sent to the deans of the faculties concerned.

In the event of uncertainty or a dispute regarding information in Part 2 of the Yearbook, the final interpretation will be based on the English version.

Language Policy and Plan

The official Language Policy and Language Plan of Stellenbosch University were approved by the Council of the University. The full version is available at <http://www.sun.ac.za/language>.

Inclusivity

Stellenbosch University admits students of any race to all rights, privileges, programmes and activities generally accorded or made available to students at the University. The University does not discriminate on the basis of race in the implementation of its educational policies, its scholarship and bursary programmes, or its sport programmes.

Communication with the University

Prospective students

The University allocates an application number to you (for example APP/1234567) when you apply to study at the University.

The application number is a unique number to identify you and to simplify future communication with the University regarding all your programme applications in a given year.

Use your application number every time you communicate with the University.

Current or former Stellenbosch University students

The University allocates a student number to you when you are admitted to a programme and register at the University.

The student number is a unique number to identify you and to simplify future communication with the University.

Use your student number every time you communicate with the University.

Important concepts

Number

In this Part 2 of the University Yearbook, any expression signifying the singular includes the plural, and vice versa, unless inconsistent with the context.

Programme

In this Part 2 of the University Yearbook, the terms "programme" and "programmes" are short for "instructional programme"/"programme of study" and "instructional programmes"/"programmes of study" respectively, unless inconsistent with the context.

Holder

In this Part 2 of the University Yearbook, the term "holder" means "bursary holder" and/or "merit bursary holder", unless inconsistent with the context.

Bursary

An amount of money allocated to a deserving student to pay for his studies fully or in part. There may be a service agreement attached to the bursary.

Loan

An amount of money lent to a deserving student to pay for his studies in full or in part. The money must be paid back by the student.

Financial support

Stellenbosch University (SU) believes that people who have the potential to succeed academically should as far as practicable be given the appropriate opportunities. This is why SU strives to provide as much support as possible to those who gain admission to the University as students but who lack financial means.

The University is very much aware of the financial need of its students. Unfortunately, though, the University does not have unlimited funds at its disposal. Students are encouraged to not only look to the University for financial support, but to also explore other, external (private) funding opportunities. The fact that a student has applied for an SU bursary or funding is not a guarantee in any sense that they will be granted such funding.

The University offers two reliable forms of financial support that students can count on, namely excellence awards and the highly beneficial "three children" rebates. These awards and rebates are granted based on merit and do not consider financial need as an eligibility criterion.

In the first and last instance, therefore, each student at Stellenbosch University is personally responsible for making financial provision for the settlement of their student fees account.

1. Who qualifies for financial support?

All South African citizens who are prospective students (who received a conditional or final offer from SU) or current SU students may apply for financial support from the University.

A student who comes from a household with a gross household income (HHI) of less than R350 000 per year – or for a student living with a disability, a gross HHI of not more than R600 000 per year – are advised to apply for the government-funded National Student Financial Aid Scheme (NSFAS) full-cost bursary. This bursary is available to South African citizens and all SASSA grant recipients, and applications are done online via the NSFAS website, www.nsfas.org.za. These students are encouraged to also apply for SU financial aid.

The following categories do not qualify for financial support:

- Occasional students admitted to a module or modules
- Students studying second B degree programme and
- Students who are not RSA citizens

1.1 The two sets of factors in the University's allocation of financial support

Since the University's financial resources are limited, it bases the allocation of bursaries – in other words, the allocation of financial support – on both academic and financial factors.

Central to the academic factors is the individual's potential to make a success of university studies. Central to the financial factors is the individual's financial need.

a) Academic factors

Students at the University, whether registered (current) or prospective, must meet the minimum academic requirements for admission.

First-year students and students in one of the extended degree programmes who have been admitted to the University as students on the strength of their results in the final school examinations (or equivalent examinations) may be eligible for financial support (the University takes such admission to be sufficient proof of their capacity to make a success of university studies).

Undergraduate students at the University must be registered for full-time, complete programmes.

Senior undergraduate students – that is, students in a second or further year of study – are required to have passed at least 60% of the credits of their previous year of study. Senior undergraduate students who have passed less than 60% of their credits of the previous year of study disqualify themselves on academic grounds to be considered for any financial support.

b) Financial need

If an applicant has the academic potential to study successfully, the University will consider their financial need. To form an accurate picture of the applicant's financial position, the University will verify the household income via a third party.

With these financial particulars to hand, the Centre for Undergraduate Bursaries and Loans (CUBL) then assesses the extent of the applicant's financial need.

Students are granted financial support, regardless of race and gender, in direct proportion to the extent of their financial need.

An applicant is normally considered for financial support if the gross household income is less than R600 000 per year ("missing middle"). For households with a higher income, the number of dependents may be taken into consideration. Unless otherwise specified, applicants must be South African citizens and reside in South Africa.

1.2 How can I apply for financial support?

- Study this book carefully to determine which bursaries you qualify for. Make sure to read through the general bursaries, as well as the faculty-specific bursaries.
- For bursaries administrated by a private company or organisation, you can contact the company or organisation directly for application forms.
- For SU funding, you can apply online at my.sun.ac.za during the application period. These application dates will be communicated prior to the academic year for which funding may be required.
- You use the same online application form to apply for more than one bursary administered by Stellenbosch University. This includes applications for an SU external donor bursary and/or an SU family bursary.
- Make sure that you complete all the necessary forms correctly and that all required supporting documents are uploaded when requested. Incomplete applications will not be considered.
- We urge all prospective and undergraduate students with financial needs to apply online at my.sun.ac.za to be registered on the CUBL financial aid database. Bursary officers are then able to consider and nominate students accordingly, across varying financial need, academic and/or other qualifying criteria. Please note that if you submit an application and your financial circumstances change, you may inform the bursary office and be considered for suitable funding. However, if your financial circumstances change (for example, due to provider's change in income/job loss or death) and you did not submit an application, you cannot be considered for any SU funding opportunities for the given academic year.

1.3 What are the opening and closing dates for applications?

- The opening and closing date for undergraduate bursaries administered by Stellenbosch University will be communicated on all official channels. Please also visit the CUBL website for information.
- The closing dates for bursaries administrated by private companies or organisations may differ from that of the University, but the closing date of each externally administered bursary is indicated in the bursary section of this book, where available.
- Postgraduate bursary applications have various closing dates. Contact postgradfunding@sun.ac.za as early as April of the preceding academic year to enquire about the different closing dates.

1.4 How will I know if my application was successful?

All awards of bursaries to prospective students who have applied timeously are finalised during November. The Centre for Undergraduate Bursaries and Loans (CUBL) informs each applicant in writing of the outcome of their application thereafter.

1.5 What may I spend the money on?

All bursaries that are awarded to students may only be used for study fees, accommodation, meals, books and study material, and for travel allowance for students residing at home.

1.6 Reduction or cancellation of bursary

A bursary may be cancelled or reduced at any time if the holder's conduct or progress is unsatisfactory, or if the holder discontinues their studies, or if the standard of their class work or their examination results are, in the University's opinion, not adequate.

The amount of the bursary is determined by a cost-of-study calculation. If the student receives any other bursary or bursaries (e.g. an SU excellence award or a full cost-of-study bursary from an organisation), the amount of the bursary will be reduced accordingly or even cancelled. This reduction or cancellation of the bursary is done automatically.

2. What kind of financial support is available?

Current students and prospective students of the University are eligible for a wide range of bursaries. Basically, these fall into four broad types:

- First-year Undergraduate Excellence Awards – granted on the basis of academic achievement in matric; Senior Merit Bursary – granted from the second to final year of undergraduate study on the

basis of academic achievement in the previous year.

- Rebates for certain Stellenbosch University students.
- Sport bursaries for Stellenbosch University students – awarded on the basis of achievements other than scholastic or academic.
- Bursaries for undergraduate and postgraduate students with financial need at Stellenbosch University.

2.1 Excellence awards for first-year students

There are four excellence awards for academically excellent students in their first year of undergraduate study.

2.1.1 Achievement awards

a) Vice-Chancellor's Award

The Vice-Chancellor's Award is allocated in recognition of sterling grade 12 final academic results achieved. The following candidates will be considered for this award:

- ten awards to top first-year applicants who passed National Senior Certificate (NSC) and received a final offer to study towards an undergraduate qualification
- five awards to top first-year applicants who passed the Independent Examination Board (IEB), Cambridge and other recognised international examination bodies and received a final offer to study towards an undergraduate qualification

The Vice-Chancellor awardees will receive correspondence from SU in January once examination board results have been released. Each award value is R100 000 and is a once-off allocation to the Student Fees account.

Important note: The proposed list and final selection of candidates will be approved by the chair of the Bursaries and Loans Committee (BLC).

b) Top Achiever Award

The Top Achiever Award recognises the sterling grade 12 academic achievement of 20 registered, first-year students. The following candidates will be considered for this award:

- the top ten first-year students who are enrolled at SU and who attended any school across all recognised examination bodies
- the top ten first-year students who are enrolled at SU and who attended a quintile 1 to 4 school (as classified by the Department of Basic Education) and passed the National Senior Certificate (NSC)

The Top Achiever awardees will receive correspondence from SU in February once examination board results have been released. Each award value is R75 000 and is a once-off allocation to the Student Fees account.

2.1.2 Merit awards

c) Excel Award

The Excel Award is allocated to the top 1 to 5% of first-time entry, first-year registered students **per faculty**. Each award value is R25 000 and is a once-off allocation to the Student Fees account.

d) Access Award

The Access Award is allocated to all registered, first-year students from quintile 1 to 4 schools (as classified by the Department of Basic Education), who passed the National Senior Certificate (NSC) with a grade 12 average above 80%. The value of each award is based on a sliding scale and is a once-off allocation to the Student Fees account:

- more than 80% but less than 85% average: R5 000
- more than 85% but less than 90% average: R7 500
- more than 90% average: R10 000

Important note: The averages used for Excel and Access Awards are based on the calculation as per the University's Admission Policy.

The Excel and Access awardees will receive correspondence from SU in February once the examination board results have been released and faculty registrations have been concluded.

2.1.3 Summary of conditions for an excellence award

1. These awards are available to South African citizens and students with permanent residence status.
2. Recipients must be registered at Stellenbosch University for their first year of study.

3. Registration at Stellenbosch University must also be the student's first registration at a higher education institution.
4. The final grade 12 results are applicable, but re-marks will be considered on a case-by-case basis.
5. Recipients must have passed grade 12 (matric) not more than two years prior to the first year of study.
6. The award is only applicable for the first year of study and cannot be carried over to a next study year.
7. If a student de-registers before the end of the first semester, the full award will be forfeited. If a student de-registered during the course of the second semester, 50% of the award will be forfeited.
8. Recipients whose parent(s) qualify for an SU staff rebate on tuition fees will receive a pro-rated percentage of the award.

2.2 Senior Merit Bursary for senior-year students

This academic merit award is for senior undergraduates from their second to final year of study. The minimum academic requirement is a weighted average of 75% or higher **and** placement in the top 5% of senior students within the same faculty.

The award is a once-off, tuition-only rebate allocation to the Student Fees account. Please note the rebate is capped up to 20%, dependent on the number of qualifying candidates and the total monetary value available for merit bursaries and that the rebate excludes module and/or programme costs and does not cover other expenses such as textbooks, accommodation, meals and transport.

The Senior Merit Bursary awardees will receive correspondence from SU in February once faculty registrations have been concluded.

2.2.1 Summary of conditions for a Senior Merit Bursary

1. A recipient must be registered at Stellenbosch University for their undergraduate senior year of study.
2. A recipient must be a full-time student of the University.
3. A recipient must be registered for an appropriate degree programme.
4. A recipient must take the full number of modules prescribed for the year of study concerned.
5. Students who studied at other institutions are to submit their results before 15 February of the current academic year to the Centre for Undergraduate Bursaries and Loans (CUBL) for consideration.
6. The award is only applicable for one year of study and cannot be carried over to a next study year.
7. The Senior Merit Bursary will not be granted based on a student's final-year undergraduate academic results.
8. If a student de-registers before the end of the first semester, the full award will be forfeited. If a student de-registered during the course of the second semester, 50% of the award will be forfeited.
9. A recipient whose parent(s) qualify for an SU staff rebate on tuition fees will receive a pro-rated percentage of the award.

2.3 Special bursaries

a) Sport Bursary

First-year students who have superior sporting achievements to their credit may be eligible for a range of special bursaries that are not listed in this book. For more information, please contact Maties Sport, tel. 021 808 4642.

b) "Three Children" Rebate

The University gives a 10% rebate on study fees where three or more children from the same family are studying at the University simultaneously.

Bursaries for undergraduate students

As a rule, applicants for the bursaries/scholarships described in this Section must be prospective or registered undergraduate students at Stellenbosch University (SU). The exceptions to this rule will be clear from the descriptions given.

SU advises its students and prospective students to consult the relevant particulars in this Section.

All applications must be done online via the application link, or with the company or trust concerned.

Students in financial need are encouraged to apply annually for University funding, to ensure they are registered on the Centre for Undergraduate Bursaries and Loans (CUBL) financial aid database.

All undergraduate applications for funding opportunities that are administered by the University should reach CUBL before the closing date. Closing dates for private organisations or companies may vary from that of the University.

In some instances, the value of a bursary may vary year on year. In such cases, the value has not been specified.

Please note:

Interested current students and prospective students may also obtain information about other bursary options from [All Bursaries](#) and [Bursaries South Africa](#).
